ARTICLE TYPE: Review paper

ABSTRACT

The government's annual budget states its priorities. It is an extensive financial statement of the money received and the expenditures over a year. It is imperative to decode the government's annual budget policy as it is linked to improving the quality of life of its citizens. This review has illustrated that India's annual budget concentrates more on the defence sector than health and education. It needs to come up with better strategies to counter its fiscal deficit.

KEYWORDS: Government, Annual Budget, Taxes.
